

First of all thank you for the opportunity to be heard. I feel that by going to LPFM you would be taking away the services of K-LOVE, that serve a national need, for wholesome christian radio, and provide safe listening experiences to all people and especially our children. As a longtime resident of Oklahoma City, I find myself listening to K-LOVE radio on a daily basis. It fills a need that is not available any other way. There are very few christian stations, that provide the insight, music, goodness, and value that K-LOVE provides. It gives detailed information about world and local issues, and gives encouragement to all. By forcing the FM translators off the air, you in turn force K-LOVE off the air, which would be a disservice to the community. In todays world we need a station like K-LOVE that provides positive, encouraging, safe, valuable, words and music to a hurting country and world.
